Mohammed Al-Hosein

Computer Engineer | IT Infrastructure & Networking | CCNA Certified

Email: mqalhussain@gmail.com | **Phone:** +966 505662469 | **Location:** Riyadh, Saudi Arabia

LinkedIn: Mohammed Alhosein | **GitHub**: malhosein

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in **IT infrastructure, networking, and technical support**. **CCNA certified** with practical knowledge of **routing and switching, network troubleshooting**, Windows/Linux environments, and IT systems. Experienced in autonomous and real-time systems using Python, computer vision, and embedded technologies.

TECHNICAL SKILLS

- **Networking:** TCP/IP, VLANs, Routing & Switching, LAN/WAN, Network Troubleshooting, Cisco Packet Tracer
- **IT Infrastructure:** Cisco Routers & Switches, RJ45 Cabling, Patch Panels, IP Phones, CCTV
- **Systems:** Windows, Linux, Windows Server , Active Directory, VMware/VirtualBox
- **IT Support:** Hardware & Software Troubleshooting, PC & Printer Configuration, System Installation & Configuration
- **Programming & Tools:** Python, C++, Java, Git/GitHub, Advanced Excel

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA) —** Cisco | **Sep 2026**
- **Red Hat Certified System Administrator (RHCSA) —** Red Hat | **In Progress**
- **Ethical Hacker** — Cisco

WORK EXPERIENCE

- **IT Support Technician**

BENAA & ENMAA Co **Jeddah, Saudi Arabia**

Sep 2024 – June 2025

- Maintained ~95% system uptime through routine system checks, updates, and troubleshooting.
- Installed and configured software for 15–25 users and provided daily technical support.

- **IT Infrastructure & Network Support Intern — University Summer Training**

Passion Clinics & Delara Clinics **Riyadh, Saudi Arabia**

June 2025 – August 2025

- Supported IT infrastructure and internal network operations across clinical environments.
- Installed and configured 20–30 IT devices, including PCs, printers, IP phones, and CCTV systems.
- Terminated 20+ RJ45 cables, organized patch panels, and supported network connectivity and troubleshooting.
- Supported Joomla/WordPress and assisted with IT setup for a new clinic branch.

PROJECTS

SHALFA — AI-Based Autonomous Marine System | Graduation Project

- Developed a functional autonomous marine prototype integrating Raspberry Pi, GPS navigation, YOLO-based computer vision, and real-time control.
- Integrated embedded hardware and software components for autonomous navigation, monitoring, and manual control.
- Patent application submitted to SAIP and currently under review.

Enterprise Network Infrastructure Lab — Cisco Packet Tracer

- Designed and configured a multi-site network with Cisco routers and switches, VLANs, and inter-VLAN routing.
- Implemented OSPF, DHCP, NAT, and ACLs for routing, IP addressing, connectivity, and access control.
- Validated end-to-end connectivity through network testing and troubleshooting across multiple sites.

EDUCATION

AL BAHA UNIVERSITY **Al Baha, Saudi Arabia**

Bachelor of Science in Computer Engineering (2021 – 2026) - with Honors ***Graduated: January 25, 2026***

LANGUAGES

Arabic — Native | English — Professional Working Proficiency
